## Master's Comprehensive Examination Policies

### The Purpose of the Comprehensive Examination:

- To provide the student with an opportunity to demonstrate a synthesis of knowledge gained through the Master's program coursework.
- To assess the student's knowledge gained in coursework and his/her ability to retain and use this knowledge over a long period of time.
- To assess the student's ability to clearly communicate information and ideas related to the profession.

### Scoring the Exam:

*All programs except Counselor Education:* The exam consists of three essay questions. Each question will be evaluated on a "pass" or "fail" basis by the committee member (usually within two weeks).

- A. The exam will be evaluated on a "pass" (pass all three question); "Conditional Fail" (pass two questions and fail one question); or "fail" (fail two or three questions).
- B. If a student receives a Conditional Fail on the exam, he/she may arrange to meet with the committee member to determine the process for removing the deficiency.
- C. If a student receives a Fail on the exam, he/she must reapply to retake the exam on the next scheduled test date.
- D. Candidates who receive Conditional Fail or Fail on three successive attempts of a comprehensive exam will be terminated from the program.
- E. For CUIN and SPED students, the committee will consist of:
  - A faculty member from the Major area
  - A faculty member from the Supporting Area
  - A faculty member from the Master Common Core AreaThe student's advisor must be one of these faculty members.
- F. For students in the Discipline/Instruction track of the Adult and Higher Education program, one question must be written by a faculty member in the content/discipline area (e.g., English, Psychology, etc.).

*Counselor Education students:* Students are expected to attain a 75% correct response in order to successfully pass their Comprehensive Examination.

- A. Students who do not meet a 75% correct response rate may retake the exam before the end of the semester.

- B. Students who do not pass on the second attempt within the same semester must wait for the next following semester to retake the exam.
- C. Students who do not succeed on their third attempt will be given the option of retaking courses that correspond to the sections of the exam that the student finds most problematic. Students must pass the re-taken courses with an “A” before being able to sit again for the comprehensive exam.
- D. Students who fail their comprehensive exam after being offered the chance to retake salient content area courses will be dismissed from the program.
